INCIDENT SUMMARY

Caller reported a release of copper slurry due to pipeline failure. Release occurred about a 1/4 mile west of the Bonneville Gate in Magna. The pipeline failure released 345,000 lbs. of slurry (components = 124,000 lbs. Copper 1,700 lbs. Arsenic, and 1,700 lbs. Lead). Crews contained spill by berming a 300 X 20 square foot area. Vac-trucks will remove slurry and contaminated soils will be excavated. All recovered material will be moved to Copperton for reprocessing.
